**Forward-looking Statements**

The information set forth herein contains "forward-looking statements." You can identify these statements by the fact that they do not relate strictly to historical or current facts or discuss the business and affairs of CIM Commercial on a prospective basis. Further, statements that include words such as "may," "will," "project," "might," "expect," "target," "believe," "anticipate," "intend," "could," "would," "estimate," "continue," "pursue," "potential", "forecast", "seek", "plan", or "should" or the negative or other words or expressions of similar meaning, may identify forward-looking statements.

CIM Commercial bases these forward-looking statements on particular assumptions that it has made in light of its experience, as well as its perception of expected future developments and other factors that it believes are appropriate under the circumstances. These forward-looking statements are necessarily estimates reflecting the judgment of CIM Commercial and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements are subject to risks, uncertainties and other factors, including, but not limited to, those associated with (i) CIM Commercial's ability to consummate the Potential Recapitalization, including the Asset Sale and the Potential Return of Capital Event, (ii) the terms and timing of the Asset Sale, including the price at which assets are sold, (iii) the development and redevelopment of properties of CIM Commercial and (iv) changes in market rental rates. For a further list and description of the risks and uncertainties inherent in the forward looking statements, see CIM Commercial's filings with the Securities and Exchange Commission, including CIM Commercial's Annual Report on Form 10-K for the fiscal year ended December 31, 2017, the Registration Statement on Form S-11 (Reg. No. 333-210880) relating to the Series A preferred stock, the Registration Statement on Form S-3 (Reg. No. 333-203639) relating to the sale of common stock by a selling shareholder and the Registration Statement on Form S-4 (Reg. No. 333-227707) relating to the potential exchange offer for shares of our Series L preferred stock.

As you read and consider the information herein, you are cautioned to not place undue reliance on these forward-looking statements. These statements are not guarantees of performance or results and speak only as of the date hereof. These forward-looking statements involve risks, uncertainties and assumptions. In light of these risks and uncertainties, there can be no assurance that the results and events contemplated by the forward-looking statements contained herein will in fact transpire. New factors emerge from time to time, and it is not possible for CIM Commercial to predict all of them. Nor can CIM Commercial assess the impact of each such factor or the extent to which any factor, or combination of factors may cause results to differ materially from those contained in any forward-looking statement. CIM Commercial undertakes no obligation to publicly update or release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, except as required by law.

1. CMCT is the product of a merger (the “Merger”) between a subsidiary of CIM Urban REIT, LLC (“CIM REIT”), a fund operated by CIM, and PMC Commercial Trust, a publicly traded real estate investment trust, consummated in Q1 2014. Represents dividends declared on our common stock from January 1, 2014 through September 30, 2018. Excludes a special dividend paid to PMC Commercial Trust’s shareholders in connection with the Merger, but includes 2014 dividends received by CIM REIT shareholders prior to the Merger and dividends on convertible preferred stock received by Urban Partners II, LLC, an affiliate of CIM REIT and CIM Group, L.P., on an as converted basis, in the Merger. The per share equivalent in proceeds from the tender offer is \$2.15, calculated by dividing \$210,000,000, the amount used by CMCT to purchase shares of common stock of CMCT in the tender offer, by 97,676,197, the number of shares of common stock outstanding immediately prior to such tender offer. The amounts of regular and special cash dividends per share are based on the number of shares outstanding as of the applicable record dates. Past performance is not indicative of future results.

Community Focused Strategies

Following the potential recapitalization, CMCT would remain principally focused on Class A and creative office assets but may also participate more actively in additional urban real estate product types and strategies of CIM Group in order to broaden CMCT's participation in CIM Group's platform and capabilities for the benefit of all classes of stockholders

1

## Diverse **Team** of In-House Professionals

- » **Led by 15 principals** (including the three original founders) with average CIM tenure of 15 years
- » **Vertically-integrated, real asset owner and operator** with expertise across in-house research, acquisition, credit analysis, development, finance, leasing and asset management, working across multiple markets, asset classes and strategies
- » **Investments team responsible for entire life cycle of each asset**; compensation is directly aligned with that of CIM's partners and co-investors

2

## Commitment to **Community**

- » **Sector-agnostic focus** on specific urban submarkets ("Qualified Communities") exhibiting:
  - Market values that are below long-term intrinsic values; or
  - Underserved or transitional areas with dedicated resources that CIM believes will lead to outsized rent growth and/or capital appreciation
- » Extensive capital deployment in Qualified Communities has **yielded long-term relationships and a proprietary origination channel**
- » Bring **goods, services, employment and support** needed for communities to be successful

3

## **Disciplined Approach**

- » Regardless of the market cycle, CIM **employed a strict discipline** in qualifying communities, as well as underwriting projects and potential acquisitions
- » CIM employs detailed **underwriting, conservative leverage** and **proprietary research**

CIM qualifies communities for acquisition (114 qualified to date, 68 with deployed capital). CIM Qualified Communities exhibit strong growth trends, which CIM believes will lead to outsized rental growth and/or capital appreciation.

» Since initial acquisition in a CIM Qualified Community, rents have outperformed average national downturns by over 55% and average national suburbs by over 185%<sup>1</sup>

CMCT Overview

## CMCT is Actively Exploring a Potential Recapitalization to Unlock Embedded Value and Enhance Growth Prospects & Trading Liquidity

### Unlock Embedded Value Through Targeted Asset Sales

- » Monetize stabilized assets in Oakland, San Francisco and Washington DC to unlock embedded value that has been created since 2006 (8 assets totaling 2.4 million square feet)
- » Use net proceeds from asset sales (after repaying \$90 million of senior corporate debt) and cash on hand for return of capital to common stockholders for consideration approximating adjusted NAV (~\$23 per share as of June 30, 2018)<sup>1</sup>

### Enhance Growth Prospects

- » Following the potential recapitalization, CMCT would have total net assets at fair value of ~\$734 million<sup>3,4</sup> with operating properties in Los Angeles, San Francisco, Sacramento, Washington DC and Austin; aggregate in-place rents on remaining office properties well below market; approximately \$700 million in real estate assets at fair value<sup>3</sup> and ~\$29 million invested in real estate loans at fair value<sup>3,5</sup>
- » CMCT would maintain attractive development opportunities in Oakland, Austin, Washington DC, and Sacramento
- » CMCT would target same-store NOI CAGR of 4% - 6% through 2023<sup>6</sup>

1. After friction costs. See "Estimated Net Asset Value & NOI Forecast Reconciliation" on page 23 and "Net Asset Value" under "Important Disclosures" starting on page 25, with respect to the methodology of the calculation of NAV of CMCT.  
2. Estimate based on assumption all holders of Common Stock receive a return of capital pro rata. See "Important Disclosures" starting on page 25, and, in particular, "CMCT Pro Forma Capital Structure and CMCT Pro Forma Portfolio."  
3. See "Important Disclosures" starting on page 25, and, in particular, "Net Asset Value" and "CMCT Pro Forma Capital Structure and CMCT Pro Forma Portfolio."  
4. Represents total assets net of other liabilities, SBA 7(a) loan-backed notes, and secured borrowings.  
5. Represents loans receivable net of secured borrowings and SBA 7(a) loan-backed notes.  
6. Based on cash and segment NOI. Excludes potential from existing development opportunities.

## Improve Trading Liquidity

- » CIM Group has expressed an intent to dissolve CIM REIT<sup>1</sup> (which holds ~95% of CMCT's outstanding Common Stock<sup>2</sup>) as part of the potential recapitalization of CMCT and distribute any shares of CMCT Common Stock then held by it to CIM REIT's 27 institutional partners
- » CMCT's public float would increase to ~98% (from ~4%<sup>2</sup>), which is expected to improve trading volume over time and make our Common Stock eligible for inclusion in several indices
- » CMCT estimates that it will be added to certain stock indices and, if so added, ~25%-30% of its outstanding Common Stock should be held by passive funds tracking such indices within 12 months following the completion of the potential recapitalization<sup>3</sup>
- » Increased public float and trading liquidity would benefit all preferred and common stockholders and improve CMCT's access to capital

## Prudent and Flexible Capital Structure<sup>(5)</sup>

- » Continue to target capital structure consisting of 45% common equity<sup>4</sup>
- » Plan to maintain long-term debt at minimal levels (other than with respect to debt incurred for working capital purposes or acquisitions of properties or investments that the Company intends to refinance with proceeds from the issuances of Preferred Stock or Common Stock)
- » Re-evaluate Common Stock dividend policy after potential recapitalization

1. CMCT was the product of a merger (the "Merger") between a newly formed subsidiary of CIM Urban REIT, LLC ("CIM REIT"), a fund operated by CIM, and PMC Commercial Trust, a publicly traded real estate investment trust, consummated in Q1 2014.

2. As of September 30, 2018.

3. Assumes CMCT Common Stock is added to the CRSP US Equity Index, Russell 2000, MSCI US Real Estate and S&P SmallCap 600 following the potential recapitalization, which, together with other reasons, is expected to make CMCT Common Stock eligible for inclusion on such indices by increasing its public float. There is no guarantee that the potential recapitalization, the inclusion of CMCT Common Stock in such indices or increased public float will occur.

4. Based on fair value. See "Important Disclosures" starting on page 25 and, in particular, "Net Asset Value," with respect to the methodology of the calculation of fair value.

5. The Company believes that there will be more clarity to the makeup of the Company's portfolio, the aggregate sale price in any asset sales and the trading price of the Company's common stock relative to its NAV following the potential recapitalization (if it were to occur). The Company has met and consulted with certain holders of the Preferred Stock as it considers such engagement to be important and expects to continue to provide updates at significant milestones during the potential recapitalization process. Following the potential recapitalization (if it were to occur), the Company intends to finalize any alternatives for its preferred stockholders with terms that the Company believes holders will then find satisfactory.

» Active and strategic portfolio management to maximize returns to shareholders

## Active Portfolio Management

- » Gross asset sales of ~\$1,310 million (2015-2017)
- » \$152 million of office acquisitions (Q4 2017- Q3 2018)
- » Exploring gross asset sales of \$1 billion+ as part of the potential recapitalization (2019)

## Providing Liquidity to Shareholders<sup>1</sup>

| Date    | Liquidity   |
|---------|---|
| 6/2016  | \$210 million tender offer @ \$21.00/share  |
| 4/2017  | \$0.28 per share special cash dividend  |
| 6/2017  | \$1.98 per share special cash dividend  |
| 12/2017 | \$0.73 per share special cash dividend <sup>2</sup>   |
| 2019    | Exploring a potential recapitalization plan – net proceeds from asset sales and a portion of the Company's unrestricted cash balances are expected to be returned to common shareholders after debt repayment |

## Cumulative Return of Capital to Common Shareholders<sup>1,3</sup>

1. In September 2016, June 2017 and December 2017, CMCT repurchased \$80 million, \$576 million and \$310 million, respectively, of common shares in privately negotiated transactions from Urban Partners II, LLC. In connection with these share repurchases, CMCT paid the special cash dividends described in the table above that allowed the common stockholders that did not participate in the share repurchases to receive the economic benefit of such repurchases. Urban Partners II, LLC waived its right to receive these special cash dividends.

2. Dividend was declared in December 2017 and paid in January 2018.

3. CMCT is the product of a merger (the "Merger") between a subsidiary of CIM Urban REIT, LLC ("CIM REIT"), a fund operated by CIM, and PMC Commercial Trust, a publicly traded real estate investment trust, consummated in Q1 2014. Represents dividends declared on our common stock from January 1, 2014 through September 30, 2018. Excludes a special dividend paid to PMC Commercial Trust's

shareholders in connection with the Merger, but includes 2014 dividends received by CIM REIT shareholders prior to the Merger and dividends on convertible preferred stock received by Urban Partners II, LLC, an affiliate of CIM REIT and CIM Group, L.P., on an as converted basis, in the Merger. The per share equivalent in proceeds from the tender offer is \$2.15, calculated by dividing \$210,000,000, the amount used by CMCT to purchase shares of common stock of CMCT in the tender offer, by 97,676,197, the number of shares of common stock outstanding immediately prior to such tender offer. The amounts of regular and special cash dividends per share are based on the number of shares outstanding as of the applicable record dates. Past performance is not indicative of future results.

1. Represents gross monthly base rent, as of September 30, 2018, multiplied by twelve. The amount reflects total cash rent before abatements. Where applicable, annualized rent has been grossed up by adding annualized expense reimbursements to base rent. Annualized rent for certain office properties includes rent attributable to retail.
2. Represents trailing 9-month occupancy as of September 30, 2018, calculated as the number of occupied rooms divided by the number of available rooms.
3. Represents trailing 9-month RevPAR as of September 30, 2018, calculated by dividing the amount of room revenue by the number of available rooms.
4. Represents gross monthly contractual rent under parking and retail leases commenced as of September 30, 2018, multiplied by twelve. This amount reflects total cash rent before abatements. Where applicable, annualized rent has been grossed up by adding annualized expense reimbursements to base rent.

## Prudent and Flexible Target Capital Structure

- » Target capital structure of 45% common equity, 55% preferred equity debt - seeks to enhance common equity returns with low relative risk
- » Plan to maintain long-term debt at minimal levels (other than with respect to debt incurred for working capital purposes or acquisitions of properties or investments that the Company intends to refinance with proceeds from the issuances of Preferred Stock or Common Stock)

1. As of September 30, 2018. Debt is taken at face value and excludes secured borrowings, SBA 7(a) loan-backed notes, deferred financing costs on our debt, and premiums and discounts on our debt; preferred stock is taken at redemption value; and common equity is reduced by the difference between the face value and the carrying value of our debt, deferred financing costs on our debt, and the difference between the redemption value and carrying value of preferred stock. See "Important Disclosures" starting on page 25 and, in particular, "CMCT Pro Forma Capital Structure and CMCT Pro Forma Portfolio."

2. Loans receivable, net represents loans receivable net of secured borrowings and SBA 7(a) loan-backed notes.

CIM believes that its community qualification process provides it with a significant competitive advantage when making urban real asset acquisitions.

- » Since 1994, CIM has qualified 114 communities in high barrier-to-entry markets and has owned and operated assets in 68 of those communities<sup>1</sup>. The qualification process generally takes between six months and five years and is a critical component of CIM's urban asset evaluation.

Important Disclosures

## Assets Owned and Operated

**Assets Owned and Operated (AOO)** represents the aggregate assets owned and operated by CIM on behalf of partners (including where CIM contributes alongside for its own account) and co-investors, whether or not CIM has discretion, in each case without duplication. AOO includes total gross assets at fair value, with real assets presented on the basis described in the Book Value disclosure and operating companies presented at gross assets less debt, as of September 30, 2018 (the "Report Date") (including the shares of such assets owned by joint venture partners and co-investments), plus binding unfunded commitments. The only investment currently held by CIM REIT consists of shares of CMCT Common Stock; the Book Value of CIM REIT is determined by assuming the underlying assets of CMCT are liquidated based upon the third-party appraised value, which represents the assets' third-party appraised value as of December 31, 2017 plus capital expenditures through September 30, 2018. CIM does not view the market price of CMCT's publicly-traded Common Stock to be a meaningful indication of the fair value of CIM REIT's interest in CMCT due to the fact that the publicly-traded shares of CMCT represent less than 5% of the outstanding shares of CMCT and are thinly-traded. AOO also includes the \$0.3 billion of AOO attributable to CIM Compass Latin America (CCLA), which is 50% owned and jointly operated by CIM. AOO for CMMT Partners, L.P. (which represents assets under management), a perpetual-life real estate debt fund, is \$0.6 billion as of the Report Date.

**Book Value** for each investment generally represents the investment's book value as reflected in the applicable fund's unaudited financial statements as of the Report Date prepared in accordance with U.S. generally accepted accounting principles on a fair value basis. These book values generally represent the asset's third-party appraised value as of the Report Date, but in the case of CIM's Cole Net-Lease Asset strategy, book values generally represent undepreciated cost (as reflected in SEC-filed financial statements).

**Net Asset Value (NAV)** represents the distributable amount based on a "hypothetical liquidation" assuming that on the date of determination that: (i) investments are sold at their Book Values; (ii) debts are paid and other assets are collected; and (iii) appropriate adjustments and/or allocations between equity partners are made in accordance with applicable documents, as determined in accordance with applicable accounting guidance.

Any estimated NAV contained herein shall not be treated as the "Applicable NAV" for purposes of CMCT's Series A Preferred Stock offering. Neither the Financial Industry Regulatory Authority nor the Securities and Exchange Commission provides rules on the methodology we must use to determine our estimated NAV per share. The determination of estimated NAV involves a number of subjective assumptions, estimates and judgments that may not be accurate or complete. We believe there is no established practice among public REITs for calculating estimated NAV. Different firms using different property-specific, general real estate, capital markets, economic and other assumptions, estimates and judgments could derive an estimated NAV that is significantly different from our estimated NAV. Thus, other public REITs' methodologies used to calculate estimated NAV may differ materially from ours. Additionally, the estimated NAV does not give effect to changes in value, investment activities, capital activities, indebtedness levels, and other various activities occurring after June 30, 2018 that would have an impact on our estimated NAV.

The estimated NAV per share of Common Stock of \$22.97 was calculated by reducing the estimated NAV per share of Common Stock, as of June 30, 2018, of \$24.29, primarily by transaction costs expected to be incurred in connection with the potential recapitalization, and the difference between the face value and the carrying value of our debt and the redemption value and carrying value of our redeemable preferred stock. The estimated NAV per share of Common Stock, as of June 30, 2018, of \$24.29, was calculated relying in part on appraisals of our real estate assets and the assets of our lending segment. The table "Estimated Net Asset Value" on page 23 sets forth the material items included in the calculation of our estimated NAV. We engaged various third party appraisal firms to perform appraisals of our real estate assets and the assets of our lending segment as of December 31, 2017. Except for one office property acquired in December 2017 and one office property acquired in January 2018, which were based on the purchase price (including transaction costs that were capitalized and assumption of liabilities) negotiated with the unrelated third-party sellers, the fair values of our investments in real estate were based on appraisals obtained as of December 31, 2017, plus capex additions, at cost, incurred thereafter. The December 31, 2017 appraisals were performed in accordance with standards set forth by the American Institute of Certified Public Accountants. Each of our appraisals were prepared by personnel who are subject to and in compliance with the code of professional ethics and the standards of professional conduct set forth by the certification programs of the professional appraisal organizations of which they are members. The fair values of the assets of our lending segment were based on an appraisal obtained as of December 31, 2017 plus loan activity at cost incurred thereafter.

## Net Asset Value

## CMCT Pro Forma Capital Structure and CMCT Pro Forma Portfolio

- » The following assumptions were used:

**Targeted Sales of Properties.** CMCT's Board of Directors has approved the sale of any or all of the properties of the Company set forth on page 14 (collectively the "Asset Sale"), so long as the aggregate net proceeds from the sale(s) (excluding any property-level cash or restricted cash but after giving effect to any adjustments to the sale price of each property as any authorized officer of the Company determines customary or appropriate in these circumstances, including the settlement of any related property-level assets and liabilities, repayment, assumption, or defeasance of any related mortgage and the costs associated with such repayment, assumption or defeasance, and the costs and expenses incurred in connection with the sale(s)) are not less than 90% of the aggregate NAV of the properties (determined as of September 30, 2018 on a fair value basis) that are sold. In connection with the Asset Sale, the assets and liabilities associated with the Asset Sale, with the exception of property-level cash, which is assumed to be retained by CMCT, and, as applicable, property-level restricted cash, which is assumed to be converted to unrestricted cash upon sale and retained by CMCT, were eliminated for purposes of the pro forma capital structure. These adjustments also include the net cash proceeds assumed to be received upon the closing of the Asset Sale, which have been estimated based on bids received by the Company from potential buyer(s), and a broker's opinion of value with respect to one asset, taking into account deductions for (1) any related mortgage debt on the properties (five mortgage loans are assumed to be defeased, one mortgage loan is assumed to be prepaid by the Company at closing, and one mortgage loan is assumed to be assumed by the buyer of the related property), (2) costs expected to be incurred in connection with the aforementioned defeasance of five mortgage loans (based on an estimate prepared by a third-party service provider), the prepayment of one mortgage loan (based on the applicable loan agreement), and no costs relating to the assumption by a potential buyer of the mortgage on one property, as such potential buyer is expected to pay for such costs, (3) estimated credits to the respective buyers, as applicable, for unpaid tenant improvement allowances, lease commissions, and free rent, based on such actual unpaid amounts as of September 30, 2018, as well as for lease agreements in negotiation and expected to be executed prior to the Asset Sale, (4) estimated selling expenses, which have been estimated based on expected broker fees, transfer taxes applicable to the location of the properties, and expenses expected to be incurred in connection with the Asset Sale, (5) with respect to one property, the share of the distributable proceeds payable to the noncontrolling interest in accordance with the limited partnership agreement of the owner of such property, and (6) changes to cash for settlement of property level other assets and liabilities. There can be no assurance that the Asset Sale will be consummated, whether in whole or in part. Actual proceeds could differ materially from those reflected herein.

**Potential Repayment of Certain Indebtedness.** If the Asset Sale occurs, CMCT may use a portion of the net proceeds from the Asset Sale to repay balances on certain of the Company's indebtedness (the "Potential Repayment"). If the Potential Repayment occurs, CMCT will terminate three interest rate swaps. In connection with the Potential Repayment,

certain deferred financing costs and related accumulated amortization and the interest rate swaps would be eliminated, and cash received in connection with the Asset Sale would be reduced by the cash used in connection with the Potential Repayment, less cash assumed to be received in connection with the termination of the interest rate swaps.

**Return of Capital to Holders of Common Stock.** The net proceeds from the Asset Sale remaining following the Potential Repayment, as well as a portion of CMCT's unrestricted cash balances, may be used to return capital to holders of CMCT Common Stock (the "Potential Return of Capital Event") for consideration approximating the NAV per share of Common Stock after certain adjustments, in one or more transactions, which may take the form of a special dividend, private repurchase or tender offer. The results of the Potential Return of Capital Event is assumed solely for the purpose of the pro forma adjustments to be in the form of a Common Stock buyback whose size is primarily dependent on the estimated net proceeds from the Asset Sale, net of the Potential Repayment. The estimated number of shares to be repurchased, canceled and retired of 30,039,182 was determined by assuming a buyback of shares in the amount of \$690,000,000 divided by an estimated NAV per share of CMCT's Common Stock of \$22.97 which was calculated by reducing the estimated NAV per share of CMCT Common Stock, as of June 30, 2018, of \$24.29, primarily by transaction costs expected to be incurred in connection with the Asset Sale as described above, the Potential Return of Capital Event, and the difference between the face value and the carrying value of CMCT's debt and the difference between the redemption value and carrying value of CMCT's redeemable preferred stock. Estimated fees and expenses associated with the Potential Return of Capital Event were based on the actual fees and expenses incurred in similar transactions previously consummated by CMCT. To the extent the actual sales proceeds from the Asset Sale differ from the estimated sales proceeds used, or the size of the Potential Return of Capital Event differs from that used herein, the magnitude of any Common Stock buyback and the number of shares bought back may differ materially from the assumptions used herein. The Potential Return of Capital Event may take the form of a special dividend, private repurchase or tender offer; however, the Company has not made a determination as to which form the Return of Capital Event will take. If the actual form of the Potential Return of Capital Event differs from the form assumed for purposes of calculating the pro forma adjustments here, the effects of the actual Potential Return of Capital Event may differ from what are described herein.

**CIM REIT Liquidation.** CIM REIT beneficially owns approximately 95% of CMCT's outstanding Common Stock. CMCT has been informed that, if the Asset Sale and Potential Return of Capital Event occur, CIM Group intends to liquidate CIM REIT by distributing to its members, consisting of 27 institutional investors, all shares of CMCT Common Stock then held by CIM REIT.
