Debt Maturity Schedule (December 31, 2025)¹ | in millions

Fixed Debt vs. Floating Debt (December 31, 2025)¹

Important Information - Debt and Preferred Summary

1. Excludes: Lending Division debt held for sale: Secured borrowings – government guaranteed loans of \$1.3 million, along with net unamortized premiums of \$19,000, and SBA 7(a) loan-backed notes of \$16.4 million, net of deferred debt origination costs of \$402,000.
2. The Company's fixed rate mortgages payable are non-recourse and are secured by, among other things, first priority deeds of trust, security agreements or other similar security instruments on the fee simple interests in properties underlying such mortgages and assignments of rents receivable. As of December 31, 2025, the Company's fixed rate mortgages payable had fixed interest rates of 6.25%, 4.14%, and 7.41% per annum, with payments of interest only and initial maturity dates of June 7, 2026, July 1, 2026, and January 11, 2030, respectively.

In regards to the mortgage payable with a balance of \$66.3 million as of December 31, 2025 maturing on June 7, 2026 (the "1150 Clay Mortgage"), the Company executed the final one-year extension option under the mortgage in June 2025. The Company intends to work with the lender in order to refinance the 1150 Clay Mortgage beyond its stated maturity date of June 7, 2026. Although the Company believes it is likely it will be able to refinance the 1150 Clay Mortgage prior to June 7, 2026, there can be no assurance that such refinancing will occur. If the Company and the lender under the 1150 Clay Mortgage cannot agree on an extension of the mortgage and the Company fails to repay the loan in full upon its contractual maturity date, such failure would constitute an event of default under the mortgage and would allow the lender to, among other remedies, take possession of the property.

In regards to the mortgage payable with a balance of \$97.1 million as of December 31, 2025 maturing on July 1, 2026 (the "1 Kaiser Mortgage"), the Company intends to work with the lender in order to refinance the 1 Kaiser Mortgage beyond its stated maturity date of July 1, 2026. Although the Company believes it is likely it will be able to refinance the 1 Kaiser Mortgage prior to July 1, 2026, there can be no assurance that such refinancing will occur. If the Company and the lender under the 1 Kaiser Mortgage cannot agree on an extension of the mortgage and the Company fails to repay the loan in full upon its contractual maturity date, such failure would constitute an event of default under the mortgage and would allow the lender to, among other remedies, take possession of the property.
3. The Company's variable rate mortgages payable are non-recourse and are secured by, among other things, first priority deeds of trust, security agreements or other similar security instruments on the Company's fee simple and leasehold interests in its hotel asset and adjacent parking garage and by a deed of trust on and assignment of rents receivable from a multifamily property. As of December 31, 2025, the Company's variable rate mortgages payable had a variable interest rate of SOFR plus 4.35%, SOFR plus 3.36%, SOFR plus 3.00% and SOFR plus 2.95%, with a maturity date of January 1, 2027, January 31, 2027, February 14, 2027 and April 3, 2028, respectively. The mortgages with maturity dates of January 1, 2027, January 31, 2027, and February 14, 2027 have monthly payments of interest only, while the mortgage with an initial maturity date of April 3, 2028 has monthly payments of interest plus \$50,000 of principal.

With regards to the mortgage payable with a balance of \$81.0 million as of December 31, 2025 secured by a multifamily property in Oakland, California, (the "Channel House Mortgage"), on August 4, 2025 the Company reached an agreement with the lender to extend the maturity date through January 31, 2027 (the "Channel House Mortgage Extension"). In connection with the Channel House Mortgage Extension, the Company made a repayment of \$6.0 million under the Channel House Mortgage, reducing it from its previous balance of \$87.0 million. Although the Company believes it is likely it will be able to refinance the Channel House Mortgage prior to January 31, 2027, there can be no assurance that such refinancing will occur. If the Company and the lender under the Channel House Mortgage cannot agree on an extension of the mortgage and the Company fails to repay the loan in full upon its contractual maturity date, such failure would constitute an event of default under the mortgage and would allow the lender to, among other remedies, take possession of the property.
4. In June 2025, a subsidiary of the Company, as borrower, entered into an agreement (the "Lending Division Revolving Credit Facility") with a bank that included a \$20.0 million revolving credit facility secured by the unguaranteed portion of certain of such subsidiary's SBA 7(a) loans receivable and other assets of such subsidiary, subject to a borrowing base calculation, and fully guaranteed by the Company. As previously announced on November 12, 2025, the Company and First Western entered into the Membership Interest Purchase Agreement with the Buyer. The closing contemplated by the Membership Interest Purchase Agreement occurred on January 21, 2026. At the closing, Buyer purchased from the Company all of the issued and outstanding equity interests of First Western SBLC, LLC, and the remaining balance of \$10.5 million under the Lending Division Revolving Credit Facility was paid in full, resulting in the termination of the Lending Division Revolving Credit Facility.
5. The Company has junior subordinated notes with a variable interest rate which resets quarterly based on the three-month SOFR plus 3.51%, with quarterly interest only payments. The junior subordinated balance is due at maturity on March 30, 2035. The junior subordinated notes may be redeemed at par at the Company's option.
6. Outstanding Series A1 Preferred Stock represents total shares issued as of December 31, 2025 of 12,240,878, less redemptions of 3,491,336 shares, multiplied by the stated value of \$25.00 per share. Dividends on Series A1 Preferred Stock are paid at a rate of the greater of (i) an annual rate of 6.0% (i.e., the equivalent of \$0.3750 per share per quarter) and (ii) the Federal Funds (Effective) Rate for such quarter and plus 2.5% up to a maximum of 2.5% of the Series A1 Preferred Stock Stated Value per quarter.
7. Outstanding Series A Preferred Stock represents total shares issued as of December 31, 2025 of 8,820,338, less redemptions of 5,151,320 shares, multiplied by the stated value of \$25.00 per share. Includes shares issued to CIM Group in lieu of cash payment of the asset management fee. Gross proceeds are not net of commissions, fees, allocated costs or discounts.
8. Outstanding Series D Preferred Stock represents total shares issued as of December 31, 2025 of 56,857, less redemptions of 12,532, multiplied by the stated value of \$25.00 per share. Gross proceeds are not net of commissions, fees, allocated costs or discounts.
9. Other than the March 2026 Redemption, the company does not currently intend to redeem, at the Company's election, additional Preferred Stock in shares of Common Stock. However, the Company will evaluate redemption requests submitted by holders of Preferred Stock at the time it receives such requests and may elect to redeem those Preferred Shares in Common Stock or cash, at the Company's discretion.

Important Disclosures

Annualized Rent. represents gross monthly base rent, or gross monthly contractual rent under parking and retail leases, multiplied by 12. This amount reflects total cash rent before abatements. Where applicable, annualized rent has been grossed up by adding annualized expense reimbursements to base rent. Annualized rent for certain office properties includes rent attributable to retail.

Assets Owned and Operated (AOO). represents the aggregate assets owned and operated by CIM on behalf of partners (including where CIM contributes alongside for its own account) and co-investors, whether or not CIM has discretion, in each case without duplication.

DISCLAIMERS. The results that a shareholder will realize will depend, to a significant degree, on the assets actually purchased by CMCT from time to time and the actual performance of such assets, which may be impacted by economic and market factors. The actual performance of CMCT will be subject to a variety of risks and uncertainties, including those on page 2. In no circumstance should the hypothetical returns be regarded as a representation, warranty or prediction that a specific asset or group of assets will reflect any particular performance or that it will achieve or is likely to achieve any particular result or that shareholders will be able to avoid losses, including total loss of their investments. Inherent in any investment is the potential for loss. There can be no assurance that CMCT will achieve comparable results, that the returns sought will be achieved or that CMCT will be able to execute its proposed strategy. Actual realized returns on investments may differ materially from any return indicated herein.

Important Disclosures

Adjusted Funds From Operations (AFFO). AFFO is a non-GAAP, non-standardized measure which is widely reported by REITs. Other REITs may use different methodologies for calculating AFFO and, as a result, CMCT's AFFO may not be comparable to the AFFO of other REITs. CMCT calculates AFFO by (a) eliminating the impact on FFO of (i) straight-line rent revenue and expense; (ii) amortization of lease inducements; (iii) amortization of above and below market leases (including ground leases); (iv) amortization of above and below market debt, loan premiums and discounts, and deferred loan costs; (v) amortization of tax abatement; (vi) amortization of loan receivable discount and accretion of fees on loans receivable; (vii) unrealized premium adjustment; (viii) deferred income tax expense; (ix) non-cash compensation expense; (x) loss on early extinguishment of debt; (xi) redeemable preferred stock redemptions; and (xii) redeemable preferred stock deemed dividends and (b) subtracting (i) lease inducement payments and (ii) recurring capital expenditures and recurring tenant improvements and leasing commissions. Because of the inherent uncertainty related to these special items, management does not believe it is able to provide a meaningful forecast of the comparable GAAP measures or reconciliation to any forecasted GAAP measure without unreasonable effort.

AFFO is not intended to represent cash flow but may provide additional perspective on CMCT's operating results and our ability to fund cash needs and pay dividends. AFFO should only be considered as a supplement to net income. See page 28 for a reconciliation of AFFO to net loss attributable to common stockholders.
