IMPORTANT DISCLOSURES

FORWARD-LOOKING STATEMENTS

The information set forth herein contains "forward-looking statements." You can identify these statements by the fact that they do not relate strictly to historical or current facts or discuss the business and affairs of CIM Commercial Trust Corporation ("CMCT") on a prospective basis. Further, statements that include words such as "may," "will," "project," "might," "expect," "believe," "anticipate," "intend," "could," "would," "estimate," "continue" "pursue," or "should" or the negative or other words or expressions of similar meaning, may identify forward-looking statements.

CMCT bases these forward-looking statements on particular assumptions that it has made in light of its experience, as well as its perception of expected future developments and other factors that it believes are appropriate under the circumstances. The forward-looking statements are necessarily estimates reflecting the judgment of CMCT and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements are subject to risks, uncertainties and other factors, including those set forth in CMCT's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

As you read and consider the information herein, you are cautioned to not place undue reliance on these forward-looking statements. These statements are not guarantees of performance or results and speak only as of the date hereof. These forward-looking statements involve risks, uncertainties and assumptions. In light of these risks and uncertainties, there can be no assurance that the results and events contemplated by the forward-looking statements contained herein will in fact transpire. New factors emerge from time to time, and it is not possible for CMCT to predict all of them. Nor can CMCT assess the impact of each such factor or the extent to which any factor, or combination of factors may cause results to differ materially from those contained in any forward-looking statement. CMCT undertakes no obligation to publicly update or release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, except as required by law.

(2) CMCT's Senior Unsecured Credit Facility is comprised of a revolving credit facility, a term loan, and a delayed draw term loan. At March 31, 2015, the interest rates applicable to the components of CMCT's Senior Unsecured Credit Facility were based on LIBOR plus an applicable spread determined by CMCT's maximum leverage ratio. At quarter end, the applicable rate for the revolving credit facility was LIBOR + 120 basis points and LIBOR + 115 basis points for both the term loan and delayed draw term loan. At March 31, 2015, the interest rate on unsecured credit facility ranged from 1.32% to 1.38%.

(3) This maturity date does not assume the exercise of the two one year extension options provided for in the credit agreement.

Note: In May 2015, CMCT entered into an unsecured term loan facility with a bank syndicate pursuant to which CMCT can borrow up to a maximum of \$385 million. The term loan facility ranks pari passu with CMCT's existing credit facility, covenants under the term loan facility are substantially the same as those in the existing credit facility. Outstanding advances under the term loan facility bear interest at (i) the base rate plus 0.60% to 1.25% or (ii) LIBOR plus 1.60% to 2.25%, depending on the maximum consolidated leverage ratio. The unused portion of the term loan facility is also subject to an unused fee of 0.20%. With some exceptions, any prepayment of the term loan facility prior to May 2017 will be subject to a prepayment fee up to 2% of the outstanding principal amount. The term loan facility matures in May 2022. As of May 8, 2015, no amount has been drawn under the term loan facility. CMCT has six months to draw on the term loan facility.

 $\textbf{Gross Asset Value (GAV)} \ represents the property's third-party appraised value \ as \ of such \ date.$

Cash NOI is defined as property level GAAP basis NOI adjusted to exclude straight line rent revenue/expense and amortization of intangible assets/liabilities.

IMPORTANT DISCLOSURES

Annualized Total Returns are quarterly time-weighted total returns that have been geometrically linked then annualized.

CIM IV quarterly total returns are leveraged investment-level gross returns (defined below), without taking into account organizational expenses and other fund-level expenses, calculated based on the product of quarterly appreciation and income returns.

- i. Appreciation returns are calculated by dividing the unrealized gain/loss (based on third-party appraisals and reported in the audited financials of CIMIV) by the fair market value weighted average equity for such quarter.
- ii. Income returns are calculated by dividing the actual Net Income for the applicable quarter (NOI after interest expense) by the fair market value weighted average equity for such quarter.
- iii. Fair market value weighted average equity balance for any quarter is based on the fair market net asset value [NAV] at the beginning of the applicable quarter and assumes that (a) contributions for quarterly capital expenditures are made (i.e., added to the equity balance) based on the mid-quarter convention, (b) distributions are made at the end of the quarter (and so are excluded from the calculation for that quarter), (c) contributions for the purchase of new properties and repayment of loans are made on the actual contribution date, with the resulting balances time-weighted on a daily basis for the quarter, and (d) distributions are assumed to equal the NOI reduced by any payments related to the loans (interest expense and principal amortization).

and principal amontation).

Investment-level gross returns represent the performance of an investment in a fund based on the equity contributed to the investment by the fund and distributed to the fund from the investment, provided that [a] generally, distributions resulting from debt proceeds or third party capital used to replace equity contributions are applied as a reduction in contributions and, accordingly, are not treated as distributions; (b) any fund-level debt is allocated to the investments and assumed to be investment-level debt, the significant effects of which are as follows: (i) equity contributed is reduced by the amount of assumed debt and (ii) equity distributed is reduced by the amount of repayments on such debt; and (c) certain amounts are distributed to the fund; the effects of (a) – (c) are to reduce the amount of distributions and contributions.

NCREIF Fund Index (NPI) - Open-end Diversified Core Equity (ODEC) quarterly total returns are leverage gross returns sourced from http://www.ncreif.org.

Average leverage is the simple average of the calendar year end leverage ratios for the period presented.

CIM IV leverage is total debt over total assets, as reported in the fund's fair value basis financial statements, as of a particular calendar year end.

NCREIF Fund Index (NPI) – Open-end Diversified Core Equity (ODEC) leverage is total leverage, generally calculated as total debt divided by total assets and including off balance sheet amounts.
