FORWARD-LOOKING STATEMENTS

The information set forth herein contains "forward-looking statements." You can identify these statements by the fact that they do not relate strictly to historical or current facts or they discuss the business and affairs of CIM Commercial Trust Corporation ("CIM Commercial" or "CMCT") on a prospective basis. Further, statements that include words such as "may," "will," "project," "might," "expect," "believe," "anticipate," "intend," "could," "would," "estimate," "continue," "pursue," or "should" or the negative or other words or expressions of similar meaning, may identify forward-looking statements.

CIM Commercial bases these forward-looking statements on particular assumptions that it has made in light of its experience as well as its perception of expected future developments and other factors that it believes are appropriate under the circumstances. These forward-looking statements are necessarily estimates reflecting the judgment of CIM Commercial and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements are subject to risks, uncertainties and other factors, including those set forth in CIM Commercial's Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

As you read and consider the information herein, you are cautioned to not place undue reliance on these forward-looking statements. These statements are not guarantees of performance or results and speak only as of the date hereof. These forward-looking statements involve risks, uncertainties and assumptions. In light of these risks and uncertainties, there can be no assurance that the results and events contemplated by the forward-looking statements contained herein will in fact transpire. New factors emerge from time to time, and it is not possible for CIM Commercial to predict all of them. Nor can CIM Commercial assess the impact of each such factor or the extent to which any factor, or combination of factors, may cause results to differ materially from those contained in any forward-looking statement. CIM Commercial undertakes no obligation to publicly update or release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, except as required by law.

¹ Represents gross monthly base rent, as of June 30, 2017, multiplied by twelve. The amount reflects total cash rent before abatements. Where applicable, annualized rent has been grossed up by adding annualized expense reimbursement to base rent.
 Note: Excludes office properties that are held for sale at August 11, 2017 (7083 Hollywood Boulevard and 370 L'Enfant Promenade).

In-Place Office Rents, 2Q'17¹

¹ Per Square foot. For CMCT, represents gross monthly base rent per square foot under leases commenced as of June 30, 2017, multiplied by twelve. This amount reflects total cash rent before abatements. Where applicable, annualized rent has been grossed up by adding annualized expense reimbursements to base rent. Annualized rent for certain office properties includes rent attributable to retail. CMCT excludes office properties that are held for sale at August 11, 2017 (7083 Hollywood Boulevard and 370 L'Enfant Promenade). Others sourced from SNL Financial and company reports. KRC in-place rents are as of December 31, 2016.

Class A & Creative Office

- Superior office investments in vibrant and improving urban communities
- Targeting same store NOI CAGR of 5% - 7% through 2021^{1,2}

Five Year Growth Target

Illustrative NAV/Share + Dividends

Same Store NOI CAGR of 5%-7%³

¹ Additional 1%-2% CAGR potential from development of already owned sites.

² Reflects cash and segment NOI. Excludes 7083 Hollywood Boulevard, 370 L'Enfant Promenade, 47 E. 34th Street and 4200 Scotland Street which are held for sale at August 11, 2017.

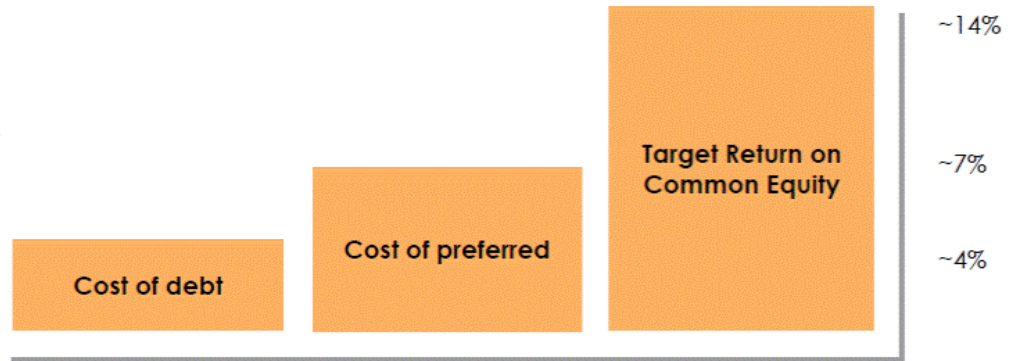

³ See page 22 for calculation of estimated NAV. Please see Important Disclosures on page 28. The illustrative NAVs per share at 2021 are based on a number of assumptions, including, without limitation, an increase in NOI at 6% per year, the capital structure of CMCT remaining unchanged from the date hereof and an annualized dividend rate of \$0.50 per share (\$0.25 for the second half of 2017). Any changes in these assumptions will affect the ability of CMCT to achieve the illustrative NAV per share. There can be no guarantee that CMCT will be able to achieve NOI growth of 6% per year. In addition, as discussed on page 13, CMCT is targeting a capital structure that is different from CMCT's current capital structure. Further, there can be no assurance that CMCT will not decrease the dividend rate of \$0.50 per year. Accordingly, CMCT makes no representation and warranty about the illustrative NAV. For additional factors that could cause our actual results to differ materially from the illustrative NAVs, please see "Important Disclosures" on page 2.

Note: Please see Important Disclosures on page 2.

Attractive And Flexible Capital Structure

- Target capital structure of 45% common equity, 25% preferred equity and 30% debt enhances common equity returns with low relative risk
- With capital structure implemented, targeted ~15% total return on equity
- Each part of the capital stack provides superior risk adjusted returns

Target Unlevered IRR of ~11% on Assets

CURRENT CAPITAL STRUCTURE¹

TARGET CAPITAL STRUCTURE

¹ Based on fair value at June 30, 2017. Assumes the sales of assets held for sale at August 11, 2017 are consummated, any asset-level debt is repaid and proceeds are held as cash.

- CIM believes that its community qualification process provides it with a significant competitive advantage when making urban real estate investments.
- Since 1994, CIM has qualified 105 communities in high barrier-to-entry sub-markets and has invested in 63 of the communities. The qualification process generally takes between 6 months and 5 years and is a critical component of CIM's investment evaluation.
- CIM examines the characteristics of a market to determine whether the district justifies the extensive efforts CIM undertakes in reviewing and making potential investments in its Qualified Communities. The Communities are located in both primary and secondary urban centers, which can encompass (1) transitional urban districts and growth markets adjacent to Central Business Districts ("CBDs") and/or (2) well-established, thriving urban areas including major CBDs.

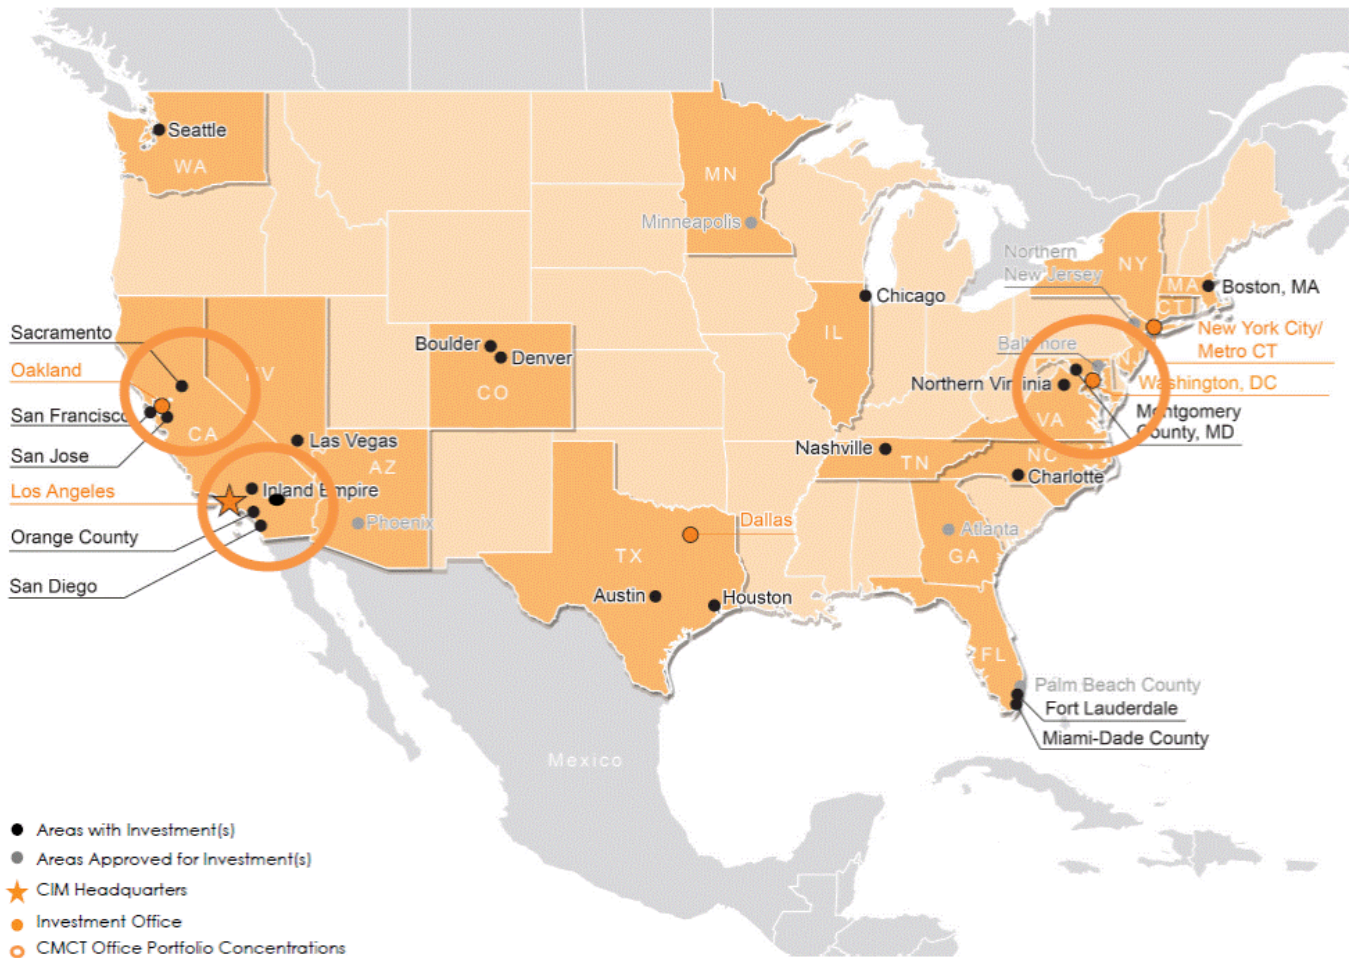

Qualification Criteria

Transitional Urban Districts

- Improving demographics
- Broad public support for CIM's investment approach
- Evidence of private investment from other institutional investors
- Underserved niches in the community's real estate infrastructure
- Potential to invest a minimum of \$100 million of opportunistic equity within five years

Thriving Urban Areas

- Positive demographic trends
- Public support for investment
- Opportunities below intrinsic value
- Potential to invest a minimum of \$100 million of opportunistic equity within five years

We believe that FFO is a widely recognized and appropriate measure of the performance of a REIT and that it is frequently used by security analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. FFO represents net income (loss) available to common stockholders, computed in accordance with GAAP, excluding gains (or losses) from sales of real estate, impairment of real estate, and real estate depreciation and amortization. We calculate FFO in accordance with the standards established by the National Association of Real Estate Investment Trusts (NAREIT).

Like any metric, FFO should not be used as the only measure of our performance because it excludes depreciation and amortization and captures neither the changes in the value of our real estate properties that result from use or market conditions nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our operating results. Other REITs may not calculate FFO in accordance with the standards established by the NAREIT; accordingly, our FFO may not be comparable to those other REITs' FFO. Therefore, FFO should be considered only as a supplement to net income as a measure of our performance and should not be used as a supplement to or substitute measure for cash flow from operating activities computed in accordance with GAAP. FFO should not be used as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to pay dividends.

The per share adjustments to net income available to common stockholders per share are calculated independently for each adjustment and may not be additive due to rounding.

1 Excludes \$23.0 million of secured borrowings-government guaranteed loans, which represent sold loans which are treated as secured borrowings because the loan sales did not meet the derecognition criteria provided for in ASC 860-30, Secured Borrowing and Collateral.

2 Excludes mortgages payable secured by 7083 Hollywood Boulevard and 4200 Scotland Street, which are held for sale at August 11, 2017. Approximately \$50.6 million of the outstanding mortgages payable at June 30, 2017 on these properties will be repaid or assumed by the buyer.

3 Excludes premiums, discounts and debt issuance costs.

4 At June 30, 2017, the interest rates applicable to the components of CIM Commercial's Unsecured Credit Facility were based on LIBOR plus an applicable spread determined by CIM Commercial's maximum leverage ratio, as defined in the credit agreement. In June 2016, all outstanding borrowings under the Unsecured Credit Facility were repaid. At June 30, 2017, \$0 was outstanding under the credit facility and \$89 million was available for future borrowings, based on covenant restrictions at June 30, 2017. In August 2017, we exercised the second of two one-year extension options through September 2018.

5 The Unsecured Term Loan Facility ranks pari passu with CIM Commercial's Unsecured Credit Facility; covenants under the Unsecured Term Loan Facility are substantially the same as those in the Unsecured Credit Facility. At June 30, 2017, the interest rate was based on LIBOR plus an applicable spread determined by CIM Commercial's maximum leverage ratio, as defined in the credit agreement. With some exceptions, any prepayment of the Unsecured Term Loan Facility prior to May 2017 was subject to a prepayment fee up to 2% of the outstanding principal amount. On August 3, 2017, we repaid \$65 million of outstanding borrowing, and terminated three interest rate swaps with an aggregate notional value of \$65 million.

6 The interest rate of the loan has been effectively converted to a fixed rate of 3.16% until May 8, 2020 through interest rate swaps.

NET OPERATING INCOME RECONCILIATION

CIM Commercial internally evaluates the operating performance and financial results of its segments based on segment net operating income, which is defined as rental and other property income and expense reimbursements less property related expenses, and excludes non-property income and expenses, interest expense, depreciation and amortization, corporate related general and administrative expenses, gain (loss) on sale of real estate, impairment of real estate, transaction costs and provision for income taxes. We also evaluate the operating performance and financial results of our operating segments using cash basis net operating income ("Cash NOI"). We define cash basis NOI as segment NOI adjusted to exclude the effect of the straight lining of rents, acquired above/below market lease amortization, and other adjustments required by GAAP.

Segment NOI and cash basis NOI are not a measure of operating results or cash flows from operating activities as measured by GAAP and should not be considered an alternative to income from continuing operations, or to cash flows as a measure of liquidity, or as an indication of our performance or of our ability to pay dividends. All companies may not calculate segment NOI or cash basis NOI in the same manner. We consider segment NOI and cash basis NOI to be useful performance measures to investors and management because, when compared across periods, they reflect the revenues and expenses directly associated with owning and operating our properties and the impact to operations from trends in occupancy rates, rental rates, and operating costs, providing a perspective not immediately apparent from income from continuing operations. Additionally, we believe that cash basis NOI is helpful to investors because it eliminates straight line rent and other non-cash adjustments to revenue and expenses. Below is a reconciliation of Cash NOI to segment net operating income and net income for the three months ended March 31, 2017 and June 30, 2017.

Assets and Equity Under Management

Assets Under Management ("AUM"), or Gross AUM, represents (i)(a) for real assets, the aggregate total gross assets ("GAV") at fair value, including the shares of such assets owned by joint venture partners and co-investments, of all of CIM's advised accounts (each an "Account" and collectively, the "Accounts") or (b) for operating companies, the aggregate GAV less debt, including the shares of such assets owned by joint venture partners and co-investments, of all of the Accounts (not in duplication of the assets described in (i)(a)), plus (ii) the aggregate unfunded commitments of the Accounts, as of March 31, 2017 ("Report Date"). The GAV is calculated in accordance with U.S. generally accepted accounting principles on a fair value basis (the "Book Value") and generally represents the investment's third-party appraised value as of the Report Date, or as of March 31, 2017, as adjusted further by the result of any partial realizations and quarterly valuation adjustments based upon management's estimate of fair value, in each case through the Report Date other than as described below with respect to CIM REIT. The only investment currently held by CIM REIT consists of shares in CIM Commercial Trust Corporation ("CMCT"), a publicly traded company; the Book Value of CIM REIT is determined by assuming the underlying assets of CMCT are liquidated based upon management's estimate of fair value. CIM does not presently view the price of CMCT's publicly-traded shares to be a meaningful indication of the fair value of CIM REIT's interest in CMCT due to the fact that the publicly-traded shares of CMCT represent less than 3% of the outstanding shares of CMCT and are thinly-traded.

Equity Under Management ("EUM"), or Net AUM, represents (i) the aggregate NAV of the Accounts (as described below), plus (ii) the aggregate unfunded commitments of the Accounts. The NAV of each Account is based upon the aggregate amounts that would be distributable (prior to incentive fee allocations) to such Account assuming a "hypothetical liquidation" of the Account on the date of determination, assuming that: (x) investments are sold at their Book Value (as defined above); (y) debts are paid and other assets are collected; and (z) appropriate adjustments and/or allocations between equity investors are made in accordance with applicable documents, in each case as determined in accordance with applicable accounting guidance.

Net Asset Value

The determination of estimated NAV involves a number of subjective assumptions, estimates and judgments that may not be accurate or complete. Further, different firms using different property-specific, general real estate, capital markets, economic and other assumptions, estimates and judgments could derive an estimated NAV that could be significantly different from our estimated NAV. Additionally, our estimated NAV does not give effect to changes in value, investment activities, capital activities, indebtedness levels, and other various activities occurring after June 30, 2017 that would have an impact on our estimated NAV, other than 370 L'Enfant Promenade whose fair value is based on a purchase and sale agreement entered into with an unrelated third party on August 10, 2017.

The estimated NAV per share of \$22.56 was calculated by CIM Investment Advisors, LLC, relying in part on appraisals of our real estate investments and the assets of our lending segment. The table on page 22 sets forth the material items included in the calculation of our estimated NAV. We engaged various third party appraisal firms to perform appraisals of our real estate investments and the assets of our lending segment as of December 31, 2016. Except for two multifamily properties and two office properties, which were classified as held for sale at August 11, 2017, the fair values of our investments in real estate were based on appraisals obtained as of December 31, 2016 plus capex additions, at cost, incurred thereafter. The fair values of our two multifamily properties and two office properties were based on purchase and sale agreements entered into with unrelated third parties. The fair values of the assets of our lending segment were based on an appraisal obtained as of December 31, 2016 plus loan activity, at cost, incurred thereafter.

The December 31, 2016 appraisals were performed in accordance with standards set forth by the American Institute of Certified Public Accountants. Each of our appraisals was prepared by personnel who are subject to and in compliance with the code of professional ethics and the standards of professional conduct set forth by the certification programs of the professional appraisal organizations of which they are members.
